Town's Permanent Employees Given Wage Boost; Dog Seen Swimming In Town's Water Dam

Council Given History of Neighbors' Squabble In West Coleman; Buy \$2,000 In Canada Savings Bonds; Complaints Registered Re Telegram Service.

Regular meeting of council was held on Tuesday evening, present being Mayor Aboussay, councillors Cox, Dutil, Jenkins, Lowe, Ramsay and Wilson.

Last week three councillors sat as a police committee and heard complaints as well as accepting a petition signed by 44 citizens against a West Coleman family. On Tuesday evening the father and teen-aged daughter of the accused family were present and the former gave council a detailed account of trouble dating back several years. He, as in the case of the four ladies, was given the same advice. If he is being tormented by his neighbors his only course of action is to lay a charge against them and have them appear in court.

A councillor reported that in his daily travels past the creek leading from the dam water had been running, showing the dam was overflowing and that meat there was over-pumping being done. Councillor Dutil reported that the water system's filter was to be cleaned on Wednesday and that the dam would be cleaned shortly after. He also revealed that he had been given reports that kids were throwing tin cans and rubbish in the dam and that a youngster's dog had actually been seen swimming in the dam. The Light & Water employee who had made these reports advocated that warning signs be posted near the dam. Council debated the question of electrifying a wire fence around the dam but failed to reach a decision.

The foot bridge on the path leading to McGillivray mine is to be repaired.

An account of \$10 was received from Pincher Creek for relief granted a Mrs. Nancy Akitt, of Coleman. It was revealed that this party was a resident of East Coleman and therefore was not the responsibility of the town. Pincher is being advised to tender their account to the RCMP.

The medical health officer submitted his monthly report. It revealed that during last month 4 cases of whooping cough, 1 case of German measles and 2 VD cases were uncovered.

Industrial development board of the dept. of trade and industry sent an explanatory letter to council regarding its activities in attracting both industry and tourists to Alberta. \$30,000 is being spent in the campaign. Council was asked for \$100. The letter was filed.

Ding & Lew's Service Station have asked a provincial license to sell radios. Council recommended that license be granted.

A Mr. Tony Loran has sent an application to Edmonton for a license to operate a footwear and woodworking store. Council will secure further information regarding this party before it commits itself.

Councillor Dutil advised council it was very probable that International would help to fill in the ravine with rock over which will be constructed the new cemetery road.

The steep hill leading from the hospital to Second street east will be inspected by Works chairman

Dutil and town foreman Malanuk with a view to improving it.

Council authorized the purchase of \$2,000 in Canada Savings bonds. The street light sought by R. Parry for so long may be installed within the next two weeks according to Councillor Dutil. This light is required to illuminate a portion of the Flat.

Once the new cemetery road is constructed the street lights on Sixth street will be arranged to better advantage.

Complaints regarding the telegram delivery service as it exists in Coleman at the present time were heard by council. These important messages, it was revealed, were being placed in the mail unknown to those to whom they are addressed and an instance was revealed where a wire, without an envelope, was stuck in a doorway and remained there for the entire night and part of the morning.

Finance chairman John Ramsay brought up the question of wage increases for the three permanent employees of the town. Following a brief discussion increases were granted the new rates authorized to be put into effect November 1, 1946. Const. Antle to be boosted from \$143 to \$160 per month; town foreman J. Malanuk from \$143 to \$160 plus his police duties allowance amounting to \$57; Secretary Gladys Lees from \$69.50 to \$77.50.

DEKLEYN'S TO LEAVE FOR BELGIUM

Mr. and Mrs. Sylvio DeKleyn are scheduled to leave Coleman within the next few weeks on the long trip to Belgium where they plan on residing.

It is some time since they sold their Sixth street home and they have been residing in temporary quarters up to the present. Passports and other necessary papers have been secured and they plan on sailing from New York on the Queen Elizabeth on November 29. Should the berths on the "Queen" be confirmed they will leave in sufficient time to allow a two weeks vacation in New York city.

Sylvio came to Coleman 21 years ago and his bride arrived in Coleman in June, 1935, they being married immediately upon her arrival in Coleman.

He was an employee of McGillivray Creek for many years before investing in the trucking business entering into contract with the local mines. He is now selling his equipment and terminating all contracts in order to free himself from all obligations prior to leaving Coleman.

Mr. and Mrs. DeKleyn sr. and Joe, of New Westminster, had planned a sailing for Belgium too. They have their chicken ranch for sale but it is not known here whether they have been successful in selling their ranch.

ADMITTED TO BC BAR

Robert F. Barnes, former Macleod and Coleman lawyer, was admitted to the bar of British Columbia by Chief Justice Farris sitting in court at Vancouver last week. Mr. Barnes is now practicing at Duncan, Vancouver Island.

"BUNNY" JENKINS HOME FROM EUROPE

A wire was received last week by Mr. Robert Jenkins that his daughter, "Bunny" who has been overseas with Canada's armed forces, had arrived back in Canada and would be home within a few days.

John Jackson Sr. Passed Away On Wednesday

Had Been Pit Boss At McGillivray; Worked In Africa In Gold And Diamond Mines.

John Jackson, 69, passed away quietly in the local hospital at approximately 4:30 Wednesday afternoon following a fairly lengthy illness. He had been admitted to the hospital on Sept. 23 and prior to that had consulted medical men at Calgary.

Born at Lanark, Scotland, in 1877 he grew up in that city and in 1900 married Miss Janet Grey, also of Lanark. In 1902, in company with a brother-in-law he travelled to Africa where he worked in the gold and diamond mines at Johannesburg and the Transvaal.

In 1906 he returned to Scotland and after a few weeks in his home land he booked passage to Canada, settling at Bankhead. In 1907 Mrs. Jackson and son, Andrew, joined him. At Bankhead he was engaged in both rock and coal mining. He also worked for brief periods at Taber, Carbon Big Valley and other small mining centres. In 1911 he and his family took up residence at Bellevue where he was first a miner, then fireboss and later assistant pit boss. In 1919 he worked at the Mohawk.

In 1926 he brought his family to Coleman where he gained employment as a driver boss, rising to fireboss and then pit boss, a position he held for many years.

Surviving are Mrs. Jackson, two sons, Andrew, of Vancouver, Jack, of Coleman, and two daughters, Jean, of Coleman, and Margaret, Mrs. J. Grouet, of Michel and three grand-children.

Funeral arrangements will not be completed until the arrival of Andrew who wired he would leave Vancouver at the earliest possible moment.

Mrs. C. F. Dunlop is a patient in the local hospital.

JOHNNY RYPIEN WITH TACOMA IN PACIFIC PRO. LEAGUE

Coleman's gift to hockey, Johnny Rypien, has graduated from the junior ranks where he was a shining star for so many years particularly with Edmonton Canadians.

This season he has entered the pro. ranks, being a member of the Tacoma club in the Pacific coast league. From latest clippings received here Johnny is still flashing that red light behind bewildered opposing goalies.

FRED ANTROBUS APPOINTED AS CORONER

Fred Antrobus has been appointed a coroner according to the latest issue of the Alberta Gazette. The necessity of a second coroner in the Pass was aptly illustrated this summer when the regular coroner was on vacation and it was found almost impossible to secure the services of an outside coroner. The efforts of influential bodies in the Pass have resulted in Mr. Antrobus' appointment.

Higher Wages Bring Coal Increase

Consumer Will Pay 60 Cents To \$1.50 a Ton More—Move to Aid Operators Following Signing of New Agreement.

Ottawa, Oct. 22 (CP)—Increases of western coal prices varying from 60 cents to \$1.50 a ton, were announced tonight by the prices board.

The increase will apply throughout Canada wherever western coal is sold.

The price increase followed approval by the National War Labor Board of a new contract between mine operators and the United Mine Workers (CCL), providing for wage increases.

The board said the new price schedule would mean these increases to consumers: Lump coal \$1 to \$1.40 a ton; egg \$1 to \$1.50; nut 50 to 85 cents; stoker 60 cents to \$1.50.

Increased cost of western bituminous coal to railways and industrial users will amount to 35 cents a ton. General average increase at the mine will be \$1 a ton with the exception of Vancouver Island where the increase will be \$1.50. Operators pay more.

In its announcement, the board said consideration had been given to higher prices paid by the operators over a considerable period for some materials. These costs, however, did not exceed 10 cents a ton.

The United Mine Workers recently completed a new agreement which provided for wage increases of 17 1/2 cents an hour, payment of a royalty of three cents a ton into a welfare fund, reduction in the work week from 48 to 40 hours and new provisions for holidays.

This agreement now has received approval of the national war labor board and the operators simultaneously made application for price increases to meet their higher operating costs.

Prices board announcement said it had been generally recognized when negotiations for wage increases started that the financial position of the companies would necessitate price increases if there was an upward adjustment of wage schedules.

Pass Citizens Evincen Great Interest In Milk Hearing Before Board Of Public Utility Commissioners Tues.

"If It Was Not For Unpaid Family Labor, Half Of Alberta's Dairies Would Not Be Able To Operate To day" Stated Board Chairman G. M. Blackstock.

The Board of Public Utility Commissioners sat in Blairmore court house Tuesday to hear evidence from milk producers and various organizations on the prevailing prices of milk in this area. Chairman G. M. Blackstock presided, assisted by Commissioner Bruce Massie.

In his opening remarks Chairman Blackstock stated that the milk producers sought an increase which, if granted, would mean a boost of two cents a quart to the consumer. The board had also received petitions from the Pass area protesting against any milk price increase. His board desired to be fair to all parties.

He summarized events, from the time Ottawa put into operation the system of milk subsidies to the present day when subsidies to both consumer and producer had been removed. He described his board as a judicial one which must act on the evidence presented it, the evidence being based on concrete facts.

T. J. Costigan, Blairmore barrister, represented the producers and called Mr. Peter DeGroot, Coleman milk producer, to the stand. Witness stated he had both produced and distributed milk from 1938 to 1943. Since 1943 he had only produced milk. He was married, had four children and had no other source of income other than

Blanche McIntyre And Rose D'Amico Pass R. N. Exams

Miss Blanche McIntyre, daughter of Mr. and Mrs. J. J. McIntyre, who has been a nurse-in-training at Holy Cross hospital for the past three years successfully sat for her Registered Nurses' examination in September. The results were made known to her last week and she forwarded the joyous tidings to her parents here.

Also successful in her R.N. examination was Miss Rose D'Amico, of Hillcrest, and sister of Mrs. Adam Wilson. Miss D'Amico is quite well known in Coleman.

Felicitations are extended to both young ladies.

Born: To Mr. and Mrs. Elvino Fontana, nee Emma Rogers, on Tuesday, October 22, a son.

Mrs. Joe Plante and children are the guests of the former's daughter, Miss Laura Plante, at Shaughnessy.

his milk sales.

He presented his financial statement covering May 1, 1945 to April 30, 1946. It revealed his milk sales at \$4,570.26 and Producer's subsidy at \$736.99 making a total of \$5,307.25. His expenses, of which hay and fodder was the heaviest item, totaled \$3,899.98. Added to this was depreciation totalling \$610.00. This left a balance of \$797.27 from which he had to pay his own salary and recognize the services of his wife and son who also aided in the dairy work.

Taxes for the past year had not been paid and would rightfully have to be debited from the \$797.27.

Since he had now lost the federal subsidy he now faced an impossible situation unless milk costs were boosted.

He, his wife and boy worked on a basis of 15 man hours per day seven days a week.

Cross examined by Sam Bannan, solicitor for the Town of Coleman, witness stated he owned 171 acres of land and leased 360 acres. He had purchased the land and chattels for \$5,800; the land being worth \$4 per acre. He bought 25 head cattle at \$75 a head. He had since added additional stock, improved the buildings, etc. and had advertised the place for \$13,000.

Examined by Mr. Neale, provincial milk administrator, witness stated he now had 42 head of stock with 32 being milked at the present time. In reply to a question witness stated that if the milk price was made more attractive there would be an incentive to produce more milk but in his case this would be a slow process since he had no money to purchase additional stock.

Examined by Chairman Blackstock witness admitted that there was milk being bootlegged in both Coleman and Blairmore, said milk being produced and sold in the Pass. In 1939 hay was baled and hauled for \$9 per ton. Bran and shorts sold for \$17 to \$18 per ton. Today haycosts \$18 while bran and shorts range from \$25.50 to \$26.50 per ton.

He had been receiving the 55 cent subsidy but even should he receive the equivalent of this subsidy in increased prices he still was not prepared to keep going. He had earned \$797.27 representing wages for himself, wife and son, while he could earn more by himself in the mines.

Wm. Oliver, Blairmore producer, stated he had the help of his wife, two boys and two hired men. He was the largest producer in the Pass.

His financial statement showed milk receipts at \$14,648.78 and his milk subsidy at \$2,646.85 for a total income of \$17,295.63. His expenses totalling \$16,775.59, leaving a balance of \$520.04 out of which he had to pay himself, his two sons and recognize his wife's services. His statement showed no reserve for depreciation.

He had 148 head of cattle from which he was milking on a yearly average 83. He fed them nine months of the year on hay, pasture.

New Use For Peat

Scientists Find It Substitute For Wax Obtainable Only From Germany

A United Kingdom wartime discovery may create a new industry. An investigation was undertaken by the British Department of Scientific and Industrial Research to find a substitute for montan wax, hitherto obtainable only from Germany. The properties of this wax, such as its hardness and high melting point, make it suitable for use in the preparation of many polishes and carbon paper. It was found that peat is relatively rich in this and other forms of hard wax—from 3% to 12% of the dry substance can be recovered as crude wax. After the wax has been extracted the peat can still be used as fuel, either in powdered form to provide power on the site or made into briquettes for use as fuel.

GOT HIS WORD IN

Nobody seemed to take much notice of Brown. He tried to get in a word now and then, but somebody with a stronger voice always took command of the conversation. At last the talk turned on the subject of dogs, and Brown felt sure that his chance would come, for he owned a dog of which he was proud.

"There are some dogs," remarked Robinson, "that have more intelligence than their masters."

"That's quite right," said Brown; "I've got one like that."

Canada's Food Products

Estimated Market Value Is Close To 100 Million Dollars

Can you imagine a column 50 feet square and extending 20 or more miles above the earth, containing, of all things, nothing but fresh fruit and vegetables? If such a column were possible it would represent the fruits and vegetables consumed annually in only two large Canadian cities.

Dr. W. C. Hopper, B.S.A., M.S., principal economist in the Economics Division of the Department of Agriculture, Ottawa, visualizes such an apparition in preparing a report for the Canadian Geographical Society on the production, importation and marketing of these food products. What such a column would be like if it included the total Canadian consumption of these commodities would be difficult to imagine.

The report states that the annual Canadian production has a market value of close to 100 million dollars. In addition to Canadian-grown products, prior to the war fruits and vegetables were also imported from 20 different countries, including the United States, South America, Italy, Palestine, Spain, the West Indies, South Africa, Mexico, Egypt and Australia. Importation from such countries is now being resumed and, according to Dr. Hopper, may eventually become greater in quantity and variety than ever before. The import value of fruits and vegetables from the United States alone is more than 60 million dollars annually.

Dr. Hopper, who pays tribute to the important distribution role played by public markets, some of which were established as long as 300 years ago, believes, however, that improved public market facilities are urgently required.

Most fruits and vegetables grow today, he adds, are the descendants of wild plants discovered hundreds of years ago. Scientific effort over a long period of time has brought their growth, texture and flavour, as well as a nutritional value, to their present high standard.

Historic Elm Lining

Something Unusual in Captain's Cabin On Liner Queen Elizabeth

When the captain of the Queen Elizabeth returned to his cabin, he was surrounded by more than memories of London's historic Waterloo Bridge.

According to Cunard-White Star officials, the cabin has been lined with elm obtained from piles driven in 1811 under the original Waterloo Bridge over the Thames. The bridge, opened on the second anniversary of the Battle of Waterloo, was torn down in 1936. The bleaching action of 125 years of swirling Thames water has turned the elm's original color to a rare shade of gray which has been held in its natural state.

WORLD HAPPENINGS BRIEFLY TOLD

The Earl of Athlone has resigned as colonel of the 7th Queen's Own Hussars.

Six "magnified chestnut burrs" have arrived at the Lincoln Park Zoo, Chicago, from London. They are tiny hedge-hogs that roll into a ball and bristle when frightened.

Princess Elizabeth has become president of the Royal Merchant Navy School of which the King is patron.

The Moscow radio reported that homes have been provided for 3,000,000 persons in the last three years in areas of Russia devastated by Germany.

The great east window of Gloucester Cathedral, largest of its kind in England and removed for safety during the war, is being replaced.

Gen. Dwight D. Eisenhower, United States army chief-of-staff, was honored at a dinner given by Prime Minister Attlee at 10 Downing street.

During the war Sheffield University students worked in laboratories three shifts a day testing forgings for tank parts and metal sheets for steel helmets.

Making naval history, Capt. H. V. Faulkner used a helicopter to fly from his ship, H.M.S. Triumph, at Sheerness, to a naval parade ground at Chatham, Kent.

Lectures and motion pictures dealing with food handling, personal hygiene, communicable disease and sanitation have started in Calgary for food dispensers in the city.

Teachers From Britain

Exchange Teacher Thinks Children Are The Same Everywhere

TORONTO.—The only Welsh teacher in a group of 20 British teachers now teaching in Ontario, Miss Constance Pugh said recently that "kids are much the same everywhere." Six other British teachers are in Toronto and the rest are scattered throughout Ontario. All women, they are here in exchange for Canadian teachers sent to Britain.

"I think this exchange system is a wonderful idea," said Miss Pugh. "Your whole educational system is entirely different to ours. Our schools are divided into so many more sections. The courses of study are different as well as the names of subjects. I expect I'll have a lot more homework than just preparing next day's lessons."

Canada's Air Force

There Will Be No Women In The Permanent Force

There will be no women in Canada's permanent air force, according to an announcement made by the minister of defence for air, Hon. Colin Gibson, in Toronto recently. The women's division will be totally demobilized by the end of this year. Permanent air force will number 16,100 men, he said. "We shall never be caught without sufficient instructors and an immediately available fighting air force again," he added.

The R.C.A.F. will have nine squadrons, including two bomber squadrons, two fighter, two photography, two transport, one army co-operation and one communication flight. Two auxiliaries will be available for immediate action, while in addition a reserve will be on call in time of emergency, the speaker said.

Hybrid corn, a product of scientific research, reached its most vigorous commercial development when the Second Great War raised food demands to the highest point in history.

For Stamp Collectors

Australia Has Special Service Which Would Be Appreciated Anywhere

For the first time in Australian post office history, the eager and fastidious stamp collector can post his letters, secure in the knowledge that the stamps will not be defaced in the post-marking. In Sydney, a new mail-box has been added with the classification—"Philatelic Mail Only".

Post office authorities explained that the ordinary machine post-marking was sometimes too heavy for the requirements of philatelists. Letters placed in the special box will be carefully stamped by hand. Since the box was installed, an average of 11 letters a day have been posted. 2695

OUR COMPLETE SHORT STORY—

UNCLE JOE GETS A FALL

By M. T. COLLINS

Copyright
Wheeler Newspaper Syndicate

UNCLE JOE has more complaints than half a dozen ordinary men. There's not an ache or pain that man's burdened with but he's sure to catch it or be sure he's going to catch it. Rheumatism and his heart are his favorite ailments. Then he has his seasonal maladies, such as hay fever in summer and for the least thing during the winter, he's sure to catch a 'cold' of a cold.

In the kitchen the eight-day clock is almost crowded off the large shelf with his medicine bottles, pills and potions; but going to a doctor was something he wouldn't even consider.

Aunt Martha doesn't pay very much attention to all his moaning and groaning, she's been listening to it for years. She claimed anyone that ate as much as Uncle Joe couldn't be very sick unless it was from indigestion.

He had just finished his annual spring tonic, an obnoxious smelling mixture made up for him by an old Indian that lived in the Big Swamp. It was supposed to clear up his liver, and, consequently, he was feeling in fine fettle.

"I'm going to do a little repair work on the barn," he told Martha sprightly. "I won't be starting work on the land until the hired man comes next week."

Martha nodded, busy making a pan of biscuits.

About an hour later she went outside to see how he was getting along and found him perched precariously high on the barn roof.

"Now you be careful, Joe Quinn!" Aunt Martha scolded sharply. "You're a long ways up in the air on that barn roof."

Uncle Joe moved his creeps to a new position but did not deign to answer and nailed a shingle in a spot where the rain might leak through.

are you tryin' to do?" He roared, "Git rid of me? I only fall off the roof. I'm as healthy as anyone."

"Yes, you most certainly are! And you fell on the strawstack," Aunt Martha spoke. "You're not even hurt. The doctor says you're the healthiest specimen he's ever examined. You, you," she was really mad, "old faker!"

Uncle Joe looked flabbergasted, all his little subterfuges were being torn down.

"I'm through mollycoddling you!" Aunt Martha stormed. Then she suddenly laughed and stooping, kissed his bald spot. Whatever she said made Uncle Joe chuckle, but he didn't hear, because we were going out the door.

SMILE AWHILE

"What has your boy learned at school this far this term?"

"That he'll have to be vaccinated, that his eyes aren't really mates, that his teeth need replacing, and that his method of breathing is entirely obsolete."

Mr. June Wed.—"What's wrong with this pie crust, darling? It doesn't half cover the pie."

Mrs. June Wed.—"I asked your mother how to make pies to suit you and she said to make the crust very short."

Chaplain—How could you have the heart to swindle people who trusted you?

Prisoner—But, Parson, people who don't trust you can't be swindled.

"Now, then, young man," demanded her father irritably, when he called for the tenth time, "what do you want with my daughter?"

"Wi-with her, sir? Well you know best what you can afford."

"Do you smile at your troubles as I advised you?"

"Yeah," and the boss warned me three times to wipe that silly grin off my face and get to work."

Kentucky paper: "Anybody around my chicken house in the night will be found there in the morning."

Friend—But isn't your son sort of listless, Mr. Moneybags?

Mr. Moneybags—Heavens, no; he has a list of blondes, a list of brunettes, and a list of red heads.

"The maid is reading our mail, dear," said the wife.

"How do you know honey?" asked the husband.

"Because," replied the woman of the house, "she went and baked a birthday cake right after the mailman brought you a greeting card from Aunt Alice."

Magistrate: "You are sentenced to pay a fine of ten guineas, plus five guineas cost. Have you anything to say?"

Offender: "Rather. And if you promise not to increase the fine, I'll say it."

PROPERTY DAMAGE

Canada Experienced 52,173 Fires During 1945

In the year 1945 there were 52,173 fires in Canada causing a property loss of \$41,958,020, according to figures released by Dominion Fire Commissioner W. L. Clairmont, Ottawa.

Across the country the greatest cause of fires was carelessness of smokers. This fault caused 17,582 fires with a loss of \$2,286,430.

An even greater property loss was caused by defective electrical wiring and appliances. These accounted for a loss of \$3,813,153.

Close behind in the list came fires caused by stoves, furnaces, boilers and smoke pipes. These caused 5,464 fires and a loss of \$3,097,785.

Overheated chimneys and flues were responsible for 3,708 blazes, hot ashes, coals and open fires produced 2,558 and sparks on roofs meant 1,262 calls for Canadian firefighters.

Other causes of fire were gasoline explosions, lights other than electric, spontaneous ignition, matches, fireworks, friction and incendiaries.

Life Span Of Fish

Cannot Be Told Accurately But Records Give Some Indication

How long do fish live, if left alone? It is not easy to take accurate account of fish, because they live under the water; but some records which are useful, at least as indications. The New York Aquarium has a record of striped bass living for twenty years, large-mouthed bass living for eleven years, and whitefish which reached fifteen years.

London Zoological Gardens had a lungfish which reached nineteen years, and there are unverified accounts of European trout which lived for fifty-three years in captivity.

Eels in aquariums have lived for fifty-five years. Studies of salmon show that the rate of growth and age of a fish may be judged from the scales.

Robbed of Sleep by Rheumatic Pain

But No Pain Now—After a Few Weeks of Kruschen

A woman's gratitude at being rid of "such dreadful pains" caused her to write this letter:

"I used to have such dreadful pains in my knees, ankles and shoulders, to say nothing of my back, which used to feel as though it would break. I had no ease, especially at night... but since taking Kruschen Salts for a few weeks only I feel a different woman, thank goodness. I have no pains now. I feel much brighter and better in every way, and shall certainly continue with Kruschen." (Mrs.) M.H.

Most rheumatic pain and swelling is caused by too much uric acid in the body. These painful deposits settle in the muscles, joints and tendons, irritate the nerves, and inflame the tissues. Kruschen Salts acts on these pain-making deposits by helping your system to dissolve them and to pass them out of your body. This relieves the pain and if you are wise, you will continue with the little morning dose of Kruschen as a help against further attacks. Try Kruschen for the relief of rheumatic pain and lumbago. 25¢ and 50¢ at your nearest drug store.

Creates New Art

Woman in Australia Uses Colored Wools To Make Beautiful Pictures

Twelve years ago Miss E. M. Richardson, an Englishwoman living in Australia, became interested in making pictures, not with oils or water colors, but with silks and wools.

Today she has developed a new art; her pictures, painted with Australian wools, are full of life color and have fine perspective. She has done pictures of such personalities as John Massfield, Edward Greig, Jean Sibelius and Thomas Edison.

Black and white portraits such as she does have never been done before, and few people have attempted landscapes in colored wools. She says that she cannot paint and has no other interest in art, yet her Australian scenes and misty-green English landscapes appear at a distance to be done in oils.

Indian Harvest Time

Meant Season For Hunting And Festivities Would Soon Start

Autumn was the time at which the Indian warriors returned from raiding enemy camps and the traders from traffic with their allies. The women of the tribe by now were busily engaged in harvesting the maize and storing it away. One interesting Mohawk family group in the Ontario gallery of the Royal Ontario Museum shows the members hard at work, the men making bows and sag troughs, the women pounding maize into flour and weaving baskets. All looked forward to the time when the fall tasks were completed, and the rest of the year could be devoted to hunting, fishing and festivities.

"HOUSE FOR RENT" AD BRINGS NEAR RIOT

PITTSFIELD, Mass.—The first "for rent" advertisement carried in the Berkshire Eagle in two years resulted in a near riot in front of the home of Mrs. Benedetto Cimino, the advertiser.

A line of cars formed that completely blocked traffic. Apartment seekers pushed and shoved their way to the Cimino front door. More than 200 telephone calls were received the first day. When it was announced that the apartment had been rented, several broke down and cried.

Diamond cutters, who serve at least a two-year trial period before being trusted with a good gem, practice diamond cutting on potatoes.

It Could Be Done

Not Too Much To Hope—United Nations May Yet Outlaw War

Gen. Eisenhower says he thinks the time has come when humanity is intelligent enough to do away with war. He says both the atom bomb and war itself should be outlawed.

Gen. Eisenhower's minority is not open to doubt, comments the Buffalo Courier-Express. If his sincerity and faith in the intelligence of humanity could be infused into all United Nations delegates, something constructive would result.

Inasmuch as the people of no nation want war, it shouldn't be beyond the realm of possibility for the United Nations to take action designed to outlaw war effectively—and this time for keeps.

It may be too much to hope, but we are not yet ready to concede that.

WOULD BE SOMETHING

First it was a gazelle boy who would run 50 miles an hour, and now it is six gazelle boys, each of whom can run faster than the preceding one. For our part, says the St. Louis Post-Dispatch, we are waiting for a gazelle boy who can run as fast as a rumor.

In Stuart days, it was the custom to put a piece of toast in the wine cup for flavor; hence the English expression, "drink a toast."

MOST MOTHERS DO THIS

If Baby Has A Cold

AT BEDTIME, rub throat, chest, back with VapoRub. Relief-bringing action starts right away!

WASH YOUR NOSE with white child soap. Often by morning most distress of cold is eased.

Best-known home remedy you can use to relieve distress of children's colds is comforting Vicks VapoRub. Even while you rub it on, VapoRub starts to work to ease distress... and it keeps on working during the night. No wonder most mothers do this when a cold strikes.

THE COLEMAN JOURNAL**A Fair Return**

It is evident from early reports that the sale of Canada Savings Bond is meeting steady response. It bears out conviction that thrift is one of the sturdiest fibres in Canadian character. As was to be expected, however, sales agencies report widely differing experiences in talking to potential customers. One question that seems to come up relates to the interest paid by the new security. "Why 2 1/2 per cent?" people ask. "Why not 3 per cent?"

It may be that these questions are prompted by some misunderstanding of the purpose of the Canada Savings Bond. The name itself provides a simple clue to this purpose. The new security is intended solely as a convenient form of personal savings, and in comparison to other forms of saving, has much to recommend it. The safety provided by the backing of the nation's resources, plus the feature of immediate redemption at 100 cents on the dollar is an attractive combination in any security. Coupled with these features, the rate of 2 1/2 per cent is a fair return, and is not approached by other comparable forms of saving or investment available today.

Dangerous Road

Pedestrians frequenting the stretch of roadway commonly known as Blairmore Road flirt with danger; danger which ranges all the way from minor injury to death, itself as has been evidenced from accidents occurring in the past.

The motorist cannot be blamed for these accidents providing he stays on his own side of the road and travels at a proper speed. He has to contend with pedestrians walking on either side of the road, of cyclists riding without rear reflectors, of live stock grazing at the side of the road.

Constant agitation for a proper sidewalk resulted this year in the Department of Public Works laying down an apology of a sidewalk on the left side of the road leaving Coleman. It is rough, rocky and has the Trans-Canada telephone

poles in the centre. It is only human nature to use that which gives the most comfort hence the so-called sidewalk is ignored and all use the paved highway regardless of danger from passing cars.

A sidewalk MUST be constructed along this busy road if pedestrians are to be protected. This fact cannot be too strongly placed in front of Edmonton.

Pure Water?

Growls of protest against continued contaminated water, year after year will grow louder when it becomes more widely known that dogs have been swimming in the town's water dam and that tin cans and rubbish have been thrown into the water.

This practice must certainly not be tolerated for one moment. Those responsible for maintaining clean and pure water, to the Coleman public must bend every effort to stop this practice immediately. Signs must be posted threatening prosecution to anyone polluting the water. Since school children are reportedly responsible, an educational campaign could be undertaken in the schools clearly pointing out the danger which might result from such actions.

Petitions and their Worth

Just what value has a petition and how much can a governing body credit it with?

So often we have seen petitions circulated and have noted that few indeed refuse to sign these documents. Possibly it is because the person signing does not wish to cause embarrassment by refusing, some like to sign their names just for signing's sake while others desire to get rid of the canvassers and sign their John Henry without paying heed to what the petitions represent.

An instance was revealed the other evening when a lady signed her name to a petition which carried a protest against her best friend and one whom she visits practically every evening of the week. She most certainly did not read the petition. Again it was told where wives signed their husband's names without the formality of making their husbands aware of their actions.

One thing a petition does do and that it sets machinery in motion in the direction the sponsors desire. Its importance however in the eyes of the government body is a matter of conjecture as the members of the governing body usually have had experience with petitions and know the public re-action to them, names appear which rightfully should not appear.

**Coleman Meat Market
 Truck Destroyed
 By Fire**

The new proprietors of Coleman Meat Market suffered a severe loss last Thursday afternoon when their half ton delivery truck caught fire enroute to Lethbridge and was a total loss.

Steve Rypien, one of the partners, and his wife set out that day for Lethbridge where they were to sell the truck and take delivery of a 1941 Chevrolet half ton truck. When nearing Pincher Steve got out and tested the oil. It was rather low so he drove into Pincher where he added sufficient oil to bring it up to the proper register. While about three miles east of Pincher Station Mrs. Rypien thought she could smell something burning. She enquired from her husband if he could smell something burning and in order to investigate he looked through the rear window of the cab only to see the gasoline tank aflame.

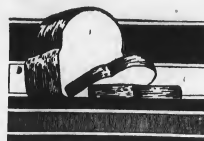

They hurriedly got out and the flame enveloped the entire truck demolishing it completely within an hour. The machine was not insured.

Mr. and Mrs. Rypien were given a ride to Macleod by a passing motorist and from that town phoned Lethbridge for the Chevrolet truck.

The burned machine is to be seen lying in the ditch along Number 3 highway.

If you raise your voice these days let it speak (not add) to the world's need.

The shooting war is over but the shouting war has been resumed and it has U in it.

ALBERTA MERCHANTS TO CELEBRATE 50th ANNIVERSARY

Important questions will be dealt with at mass meetings of Alberta Retailers.

Hon. H. R. Renault, Dominion President of the Retail Merchants Association of Canada, Inc., in company with L. Beaudry, President of the Provincial Board of Quebec, and S. A. Boswell, President of the Ontario Provincial Board, will be guests of the Alberta Provincial Board and will address mass meetings of retailers in the Macdonald Hotel, Edmonton, on Monday, November 4th; Marquis Hotel, Lethbridge, November 5th; and Palliser Hotel, Calgary, Wednesday, November 6th.

These events have been arranged as a fitting means of celebrating the Association's 50th Anniversary and it is anticipated that the attendance of Alberta Retailers will break all previous records in the history of the Association in this Province.

Banquets with programs of entertainment have been arranged as part of the Anniversary celebration, and guest speakers will be Hon. C. E. Manning, Alberta Premier, and Hon. C. E. Gerhart, Minister of Trade and Industry.

Mr. W. D. Craig, Ods, President of the Alberta Provincial Board, will preside at meetings being held in this province to celebrate the Association's 50th Anniversary.

Wholesalers, jobbers and manufacturers' agents are co-operating with the Association in the publishing of a Golden Jubilee Souvenir Program and are being invited to attend the business sessions which will open in each city at 2:30 p.m.

Mr. Walter Campbell, Regional Supply officer, will represent Mr. J. H. Thomson, Distributive Trades Administrator, W.P.T.B., and will submit in Mr. Thomson's behalf, official replies to memorandum which was presented by special delegation to Mr. Thomson at Edmonton on Friday, October 4th.

The occasion offers a splendid opportunity to all Alberta Retailers to learn first hand the future policy of the Association, also policy of the Wartime Prices and Trade Board regarding future Price Controls, etc., etc.

All retailers whether members of the Association or not and their wives are cordially invited.

Wm. Kosma Injured In Auto Collision Sunday

Suffered Fractured Legs; Poor Driving Conditions Responsible For Accident.

At 9:10 Sunday evening a Plymouth car driven by John Hopkins Jr. collided with William Kosma, Second street, on Blairmore Road as the latter was walking towards a friend's home.

It was raining at the time and the black top road appeared to absorb a great deal of the car's light. According to the driver Mr. Kosma was suddenly illuminated in the two rays of light and he had only time to sharply swerve the car towards the ditch in a vain effort to miss the man.

Mr. Kosma was knocked to the ground and the driver and other occupants of the car got out, lifted the injured man and sped to the local hospital where medical attention was immediately given him. Mr. Hopkins then reported the accident to Constable Antle.

Information gained from the injured man's family reveals that the victim suffered fractures of both legs, the left leg being fractured in four places.

He still remains a patient in the local hospital.

Mr. and Mrs. Mike Kratky Celebrated Silver Anniversary

About 40 of their friends gathered at the home of Mr. and Mrs. Mike Kratky on Saturday evening Oct. 18, on the occasion of their 25th wedding anniversary.

A most pleasant social evening was enjoyed and Mr. Steve Losky, on behalf of the assembled guests, presented the honored couple with a gold wrist watch, a dinner set, a mixer and various pieces of silverware. Mr. and Mrs. Kratky thanked their friends for the many handsome gifts.

The honored couple were married in Coleman on Oct. 18, 1921, and have been constant residents of Coleman since that time.

JIMMY SLUG MAKES LETHBRIDGE SENIOR TEAM

Coleman's Jimmy Slugg has fought successfully for a place in Lethbridge's Maple Leafs, senior entry in the Western Hockey League.

Last year Jimmy played for Kimberley Dynamiters but that team lacked the power to get into the Allan Cup play-offs and as a result Jimmy was all through with hockey almost before the play-offs really got underway.

Lethbridge would appear to have a strong club and it should be the means of giving Jimmy his opportunity for stardom.

DONATION

The following letter plus \$4.33 has been received by the Red Cross secretary J. A. Park, who expresses his Society's appreciation for the gift.

"Dear Sir Enclosed you will find \$4.33 raised by the following girls for the Red Cross, Clementine Celli, Allowa Braden, Delina Celli and Doreen Kubin. The money was raised by means of a carnival and playing bingo prizes being donated by local citizens.

Mrs. Ingram, of Calgary, is the guest of her daughter and son-in-law Mr. and Mrs. J. Wilkie.

Every FATHER

...should answer these questions:

"How much are my savings really worth?" The cash value of your savings is not what counts most. What is important is the amount of continuous income they would provide, if your wife and children were left without other means of support. In most cases ordinary savings can't provide enough! That is why you need life insurance ... "Is it important WHICH life insurance company I choose?" It is! Life insurance companies are much alike as to policies and rates, but actual long term results vary widely. We invite you to compare The Mutual Life of Canada's record

with that of any other company. Evidence of the satisfaction of our policyholders is furnished by the fact that whole families and succeeding generations have entrusted their life insurance programs exclusively to The Mutual Life of Canada, and each year approximately 35% of its new business comes from policyholders. Ask your Mutual Life representative to explain the special features of this Company.

Low Cost
Life Insurance

Q. Do you think exercise ever helps to heal tuberculosis of the lungs?

A. In certain phases of the disease this is just as essential as rest.

Advertising acts as a tonic to any head of business enterprise—

FAMILIES DELIGHT in the extra freshness and extra flavor of vacuum-packed Maxwell House Coffee. It's sealed in the Super-Vacuum Tin by the Vita-Fresh Process to ensure roaster freshness.

Questions and Answers

GENERAL

Q What are Canada Savings Bonds?
A Canada Savings Bonds are the successor to Victory Bonds and War Savings Certificates. They are your country's promise to return your money to you at any time and to pay you interest at an attractive rate.

Q Why are Canada Savings Bonds being offered?

A Because during the war, millions of Canadians learned the savings habit by buying Victory Bonds and War Savings Certificates. A recent survey shows that 82% of them want to keep on saving by a similar plan.

Q Is the Government selling Canada Savings Bonds just to raise money?

A No. Borrowing needs of the Government can be met by other types of loans. The main purpose of the Canada Savings Bond is to provide Canadians with a convenient way to continue this kind of saving and investment in peacetime.

Q Is there any limit to the amount of Canada Savings Bonds that one person may hold? If so, why?

A Yes. There is a limit of \$2000 for each individual, but each member of a family may hold bonds up to the limit.

Q What is the price of Canada Savings Bonds?

A 100%. That is, a \$100 bond costs \$100. If payment is not completed on or before November 15th, 1946, interest will be added to the purchase price.

Q In what denominations are Canada Savings Bonds available?

A \$50, \$100, \$500 and \$1,000.

CASHING OF BONDS

Q Can I cash my bond at any time before November 1, 1956?

A Yes, any branch in Canada of any chartered bank will cash your bond immediately at full face value, plus interest at 2½%, upon your identification as the registered holder.

Q Can Canada Savings Bonds be assigned or transferred?

A They can be cashed, but not assigned or transferred. This is necessary to prevent any individual from acquiring more than the authorized limit.

INTEREST COUPONS

Q What interest is paid on Canada Savings Bonds?

A 2½%—payable yearly on November 1st from 1947 to 1956, by coupon cashable without charge at any branch in Canada of any bank.

Q Are interest coupons registered?

A No. They are payable to bearer.

REGISTRATION PROTECTION

Q Why is it necessary to register Canada Savings Bonds?

A Registration gives protection in case your bond is lost, stolen or destroyed. It is also the simplest way to ensure that individuals do not hold more than the \$2,000 limit.

Q In whose name can Canada Savings Bonds be registered?

A They can be registered only in the name

of one individual, adult or minor, up to the amount of the authorized limit.

Q Can Canada Savings Bonds registered in the name of a child be cashed?

A Yes. Banks are familiar with the necessary regulations.

Q Can Canada Savings Bonds be disposed of when registered in the name of a deceased person?

A Yes, any bank will supply the necessary information.

Q Can I replace my Canada Savings Bonds, if they are lost, stolen or destroyed?

A Yes. It is wise, however, to keep Canada Savings Bonds in a safe place, as you would any other valuable documents. In case of loss you should immediately notify the Bank of Canada, Ottawa, of the circumstances.

HOW, WHEN AND WHERE TO BUY

Q Where can I buy Canada Savings Bonds?

A At any branch of a bank or from an authorized investment dealer, stock broker, trust or loan company—or through the payroll savings plan if this is in operation at your place of employment.

Q How do I pay for Canada Savings Bonds?

A In any of the following three ways:

1. By payment in full at time of purchase.
2. By monthly instalments through a bank, trust or loan company.
3. By regular deductions from pay, where employers operate the Payroll Savings Plan.

8 out of 10 will buy again....

Letter To The Editor

Editor, Coleman Journal.
Dear Sir:

Very soon the people of Coleman will be approached by a member of the Clan Donnachaidh Society to purchase a ticket for their forthcoming St. Andrew's night dance, the proceeds of which go to equipping the Coleman Pipe band. It may be that some might remember having patronized the various entertainments sponsored by the Society last winter, and wonder what became of the money raised then. We consider this a very fair question and propose giving just as fair an answer. Every cent that was donated by members of the community and outsiders, is in the bank. Not one cent of that money has been used for any purpose whatsoever.

The money raised by the society from social events is also in the bank. The money collected and earned so to speak, was for a certain purpose and will be used for that only, namely, equipping the band. Others might ask, do the band members do anything themselves? Fair enough, and here is the answer. Since the band was organized in February, 1945, the cost of upkeep of the band has been approximately one hundred dollars. Every member of the band pays twenty-five cents per month, into a fund for that purpose. Of course the amount paid by the members does not total up that much. Where did the rest come from? The band last summer put on a few concerts. They got donations for that. They played at other events and made a little in that manner. Some members of the band had private engagements. After deducting bare expense the money derived from this source was also put into the fund for outfitting the band.

The drums we use at present are not ours. We have drums ordered, and will get them from Scotland at the first available opportunity. After that comes the uniforms. A Highland uniform is an expensive one. Despite this expense, the band officers are determined that Coleman Pipe Band is going to have a uniform that will be a credit to Coleman, no matter where the band may go.

The pipers practice five nights per week, the drummers twice per week. On the nights the drummers are present the band practices as a whole. Anyone interested enough can figure this out. It all takes time and effort both on the pupils and instructors part. The pupils receive the attention of which the band officers are capable of giving. The public will see from this that all members are doing their utmost to give Coleman a pipe band. This requires a long sustained effort by everyone attached to the band.

We feel confident that the people of Coleman will do their part and support these young people in their efforts to raise money for equipment. We therefore hope ticket sellers will be kindly received and the public will remember that no matter about anything else, it's their Coleman band. The band would welcome some recruits for both pipes and drums. All information can be had from the secretary or officers of the band.

Thanking you in advance for your valuable space.

Yours truly,
JAMES MOORE.

Mr. and Mrs. T. M. Brown Of Spring Point Honored

Mr. and Mrs. T. M. Brown were the guests-of-honor at a farewell party held last Friday evening in the Spring Point community hall in the Macleod district. Over 150 friends and neighbors from Macleod, Pincher Creek, Johnson's Saw Mill, Coleman and Blairmore gathered to wish them happiness in their new home in Pincher Creek.

Rev. John L. Wright was Master of Ceremonies. He had been a close friend of the Brown family during the past forty years and spoke of the high esteem held by the Browns among their friends and neighbors. He touched on the "open house" practice maintained by the Browns to both friend and stranger alike and remarked that the Brown home would be sadly missed, comparing it to the closing of an old fort.

Col. W. Cox, an ex-N.W.M.P. and rancher of the district in the early days of Spring Point gave a brief address and expressed his regret at seeing Mr. and Mrs. Brown leave the district.

Mr. W. Clark, of Coleman, and former employee of the Browns, told of being taken to the Brown home when just a boy and how it had become a home to him until he had left, married and set up a home of his own.

Following a program on singing and dancing the honored-guests were presented with a tri-light lamp, electric toaster, electric ironer from friends in the community, a chenille bathroom set from Mr. and Mrs. Ed. Johnson, a

cushion done in hodge point from Mrs. R. Lane, of Beaver Heights, and a picture of Crows' Nest Mountain from Mr. and Mrs. R. Lloyd and Joan, of Coleman.

Mr. and Mrs. Brown expressed their grateful thanks for the gifts and stated that they were not moving far from the district and still hoped to see a lot more of their old friends. Following the presentation a dainty lunch was served.

Mr. and Mrs. Brown came to the Spring Point district from Illinois in 1906 where he had been a school teacher and later owned and operated a general store before coming to Canada to take up ranching. Besides being a rancher he has, for the past 37 years, been the postmaster for the district and makes the proud boast that only once in those 37 years did he miss a trip to Pincher for the mail.

Their two daughters, Mrs. J. Fischer, of Spring Point, and Mrs. T. Holstead, of Coleman, their respective husbands, Miss Audrey Holstead, of Coleman, Mrs. J. Hanarhan, a grand-daughter, her husband and a great-grandson John, of Macleod, all were present. Miss Helen Fischer, RN, grand-daughter, of Dawson City wired her regrets that she was unable to be present.

Mr. and Mrs. Brown have purchased a home in the town of Pincher Creek, having leased their ranch for a time, and will move into their new home shortly.

MODEL BAKERY
COLEMAN ALBERTA

Who's lucky?

Next time you see a neighbor, or one of the fellows who works with you on your job, tell yourself:
"He's a mighty lucky man—and so am I."

We all are, here in Canada. Yet "lucky" isn't quite the word for a people who have the common sense and courage to look at the high prices of many unessential things and say: "This price is too high. I won't pay it."

No, it isn't luck. It's character. It's what The House of Seagram has been proud to extol as a Canadian virtue—the ability of the Canadian people to be moderate in all things—in their thinking, in their actions and in their habits.

Nobody's just "lucky" here in Canada; we've just all helped to make ourselves that way. And because today's moderation is the key to tomorrow's abundance, the people of Canada can look forward with certainty to an abundant tomorrow.

Men who Think of Tomorrow

What he needs is Postum

Ill-temper, nervousness, sleeplessness — with some people all of these can result from the caffeine in the tea and coffee they drink. They should drink Postum! No caffeine — no other stimulants — and a grand flavor! Easily made right in the cup with boiling water or hot milk. Costs less than a cent a serving.

A Product of General Foods #117

A Tribute To Canada

THE MANNER IN WHICH PEOPLE of many races have come to this country and lived together in peace and harmony as Canadian citizens, stands as an example of what could be accomplished on a much larger scale among the nations of the world. Canadian culture has been said to be an amalgamation of all the best which has been brought here by people from other lands. In Canada, racial prejudices and language and class barriers have been submerged, while much of the finest in music, art and other forms of expression in many divergent races, has combined to benefit the cultural life of this country. Among all ranks of Canadians, statesmen, professional men, educators and those engaged in various forms of the arts, are outstanding citizens whose racial origins go back to all parts of the Old World. Regardless of this, they work together, as citizens of Canada, for the welfare and advancement of the nation.

Is An Example To The World

Right Honorable Viscount Addison, British Secretary of State for the Dominions, who recently made an extensive tour of Canada. During this tour, Lord Addison addressed audiences in a number of centres and on each of these occasions he advocated what leading statesmen of all nations are now urging, namely that the interests of the United Nations be held above those of individual states and groups of people, in the cause of an enduring world peace.

The War Taught Need For Unity

Lord Addison emphasized the fact that the war has taught the people of the world the value of unity as a basis for lasting peace. In this connection he said: "All the great projects on which we could make progress, and are doing so as far as opportunity allows, are only possible on one condition, and that is that we have for a basis of every scheme security for the people. I believe every man in every country wants to be able to pursue his life free from the dread of war, and I would like to say that I think the lesson of Canada—in which large numbers of different races, preserving their own ideals and their own teachings and their own languages are living together in a great unity—is a lesson the world should learn." Canadians should be proud, indeed to stand as such an example for peaceful co-operation among people at this crucial period in world affairs.

NAZI RICHES MAY BE USED FOR REPARATIONS

BERLIN.—The Allies may decide to use the private fortunes of the Nazis convicted by the war crimes tribunal as part of Germany's war reparations payments. It was learned that this is one of two plans under consideration in Berlin. The second plan would provide for a fund for "the victims of fascism."

Allied authorities also were reported considering whether to grant substantial pensions to the widows and wives of the convicted Nazis.

Tin Production

Will Be Some Time Before Output Exceeds Demand

LONDON.—World tin production at some future date "likely" will exceed demand, Sir John Wilmot, minister of supply, predicted. He gave no estimate as to when output of tin would be greater than demand. "Although present production is substantially below the level of desired world consumption," he told the world tin conference, "it appears to us that when main tin-producing areas in the Far East are rehabilitated, there may arise a future date position in which potential production will likely exceed the demand."

Record Apple Crop

Okanagan Valley's Production Is Expected To Be 9,000,000 Boxes

PENTICTON, B.C. — The 1946 apple crop from British Columbia's rich Okanagan Valley will set a new high production record of close to 9,000,000 boxes, fruit authorities at this centre said. An estimated 2,250,000 boxes are going to the United States and 2,000,000 to Britain. Okanagan fruit ranchers will be getting a record cash return this year. Estimates were that the total cash return from all tree fruits would be close to \$25,000,000 and possibly approach the \$30,000,000 mark.

The Babylonians had a numerical system based on 60 instead of 10.

POTATOES INCREASE

Yields Of Sugar Beets, Dried Peas And Corn Also Higher

OTTAWA.—Substantially increased yields of potatoes, sugar beets, dried peas, and corn, but a reduction in the output of alfalfa for the 1946 crop season was reported by the Dominion bureau of statistics in its first estimate of root and late crop production for the year.

The 1946 potato crop, the bureau said, was estimated at 47,000,000 hundredweight, and was substantially above the 36,000,000 hundredweight crop of a year ago. Average yield was 90 hundredweight per acre, with New Brunswick having a top yield of 150 hundredweight per acre. Quebec and Manitoba potato crops were lower this year than last, but the total 1946 Canadian crop is the largest since 1934, with the exception of 1944, the bureau said. The commercial sugar beet crop for 1946 was 83,000 tons above the 1945 output, the bureau said. The increase was due not only to increased acreages, but above average yields. Production of dry peas in Canada this year amounted to 2,322,000 bushels, compared with 1,363,000 bushels a year ago. The alfalfa crop was reduced to 3,263,000 tons—617,000 tons less than a year ago.

To Adopt Graves

French People Willing To Care For Those Of Fallen Canadian Soldiers

Graves of Canadian servicemen in the Calvados district of Normandy should not lack for attention if the present plans of the Association France-Grande Bretagne are completed.

The information office of the French embassy in Ottawa has released details of a scheme whereby French families who are resident in the localities where war cemeteries are located will adopt the graves of fallen Canadians soldiers.

They would be willing to look after the general maintenance of the graves, to keep them decorated with flowers and to send photographs. They are also willing to guide the next-of-kin should they wish to travel to France to see the graves. Whatever care they bestowed on the graves would be in addition to the care that is given by the employees of the Imperial War Graves Commission.

Those who are interested are requested to communicate with one of the following representatives, according to the district in which the grave is located.

For the Beny-sur-Mer cemetery, Mons: Louis Meriel, 58 Rue de l'Eglise, Courselles-sur-Mer, Calvados.

For the Bretteville-sur-Laize cemetery, Mons: Duquesne, Louvigny, Calvados.

For isolated graves in the Calvados department, Mons Gaudu, 14 Rue du 20 Siecle, Caen.

The association has requested that full particulars of the deceased soldier should be sent together with the location of the grave and the request for adoption of that particular grave will be passed on to a French family.

Not Always Reliable

Even If Radar Was Used Air Crashes Would Sometimes Occur

Commercial aviation's most disastrous crash (there have been much worse ones with military airships) occurred when the plane hit a Newfoundland hill.

Most airline accidents are a good deal similar, and the question arises as to why passenger aircraft don't carry radar. The answer says the Detroit Free Press is that radar, while wonderful, is by no means so practical as the enthusiasm of its publicizing has led the layman to believe.

A great deal of costly development is still necessary before it can be adapted to the needs of commercial flying. Maybe a year from now it can be, say the knowledgeable, but not yet. And even when it is standard equipment there will be occasional crashes. Railroads have signal systems that look foolproof on paper, but now and again collisions still tear Pullmans in two lengthwise.

GEMS OF THOUGHT

METHOD

The first idea of method is a progressive transition from one step to another in any course.—Coleridge.

Method is not less requisite in ordinary conversation than in writing, provided a man would talk to make himself understood.—Addison.

Be methodical if you would succeed in business, or in anything. Have a work for every moment, and mind the moment's work.—W. Matthews.

Method facilitates every kind of business, and by making it easy makes it agreeable, and also successful.—C. Simmons.

The shortest way to do many things is to do only one thing at a time.—Ocell.

The poet's line, "Order is heaven's first law," is so eternally true, so axiomatic, that it has become a truism; and its wisdom is as obvious in religion and scholarship as in astronomy or mathematics. — Mary Baker Eddy.

NEW FASTER ACTING ROYAL DRY YEAST

Add New Fast Rising Royal to water. It starts working in 10 minutes!

New Granule Form Saves Time! Saves Work! Scores New Baking Success!

No fussing with "settling bread" the night before when you're tired and "not up to it." No risk of overnight baking failure because of temperature changes. New Fast Rising Royal lets you do your whole baking in a few

hours in the daytime when you can watch the dough. New Fast Rising Royal stays full-strength, ready for use on your pantry shelf for weeks. Try New Royal Fast Rising Dry Yeast today. At your grocer's.

Seek Uranium

Australian Scientific Expeditions Organized For Three-Year Survey

ADELAIDE, South Australia.—New deposits of uranium in South Australia are sought by scientific expeditions recently organized by the South Australia government for a three-year survey of the state's mineral resources.

The expeditions will make detailed surveys of existing deposits, the largest of which is near Mount Painter, in a treeless, waterless hill range, 400 miles north of Adelaide. Under recent federal legislation known uranium deposits or any new ones that are located are automatically federal government property.

FOOD FOR BRITAIN

MELBOURNE, Australia.—Weighted down with 10,800 tons of food for Britain, the 10,000-ton freighter Orari drew more water than the 25,000-ton British battleship King George V when she sailed recently. Thirty-four feet of her hull were below water and only seven feet above.

GROW BIG SQUASHES

BRANTFORD.—They grow them big around these parts—squashes, this is. Two exhibited at the Paris fair last recently weighed 75 pounds each.

BUGS BEST FLIERS

SAYS DETROIT ENGINEER

LOS ANGELES.—William B. Stout, an engineer, debunked the notion that birds were nature's best fliers. He said bugs could fly circles around them.

Even the common house fly can fly better than a bird, Stout said.

"Did you ever see a bird that could land upside down on the ceiling?" he asked.

Stout, a Detroit consulting engineer, showed the Society of Automotive Engineers' national meeting his version of the oricopter, a flap-winged airplane built to fly like a bug.

Galileo looked at the moon with the first telescope used in astronomy in 1609.

● "There's a word going the rounds in Canadian tea circles today. Perhaps you've heard it. It's *brisk*! . . . the word experts use to describe the flavour of Lipton's Tea."

There's new and finer tea pleasure . . . new and deeper tea enjoyment . . . waiting for you in your first cup of Lipton's Tea . . . the tea with that *brisk* flavour, never dull, always fresh, lively and full-bodied. Change to *brisk*-tasting Lipton's Tea today.

SOVIET DEMANDS FOR JOINT DEFENCE OF DARDANELLES HAS BEEN REJECTED BY TURKEY

ISTANBUL.—Turkey has rejected Soviet demands for joint Turkish-Russian defence of the Dardanelles and has declared willingness to place the question of administration of the important waterway before a conference of the Big Four and other signatories of the Montreux convention, the text of her reply to Russia's second note revealed.

The Turkish reply made clear that Turkey felt that all preliminary discussions concerning the Dardanelles, as agreed upon at the Potsdam conference, are completed.

The Soviet note demanded, among other things, a share in the defence of the Dardanelles and the confining of its control to Black Sea powers.

To permit a joint defence, Turkey replied, would be incompatible "with the unchangeable rights of the sovereignty of Turkey and with its security which cannot permit any restrictions."

But, the reply continued, the time has come for revisions of the Montreux convention in line with Russian proposals regarding the passage through the waterway of war and merchant ships.

Concern Felt Over Delay Of Reparations

BRUSSELS.—The inter-allied reparations agency here, of which Canada is a member, is increasingly concerned over serious delays in the allocation from the three western zones of Germany of war-making industrial equipment for reparations.

Some leading delegates on the agency express the belief that unless payments are speeded up eventual efforts to collect them will be effectively resisted.

While the Allied control council in Berlin selects the plants to be dismantled and shipped from Germany as reparations, it is the Germans themselves who do the actual work. It would not be difficult for them to upset the process, although so far they haven't tried.

"The anticipated method would merely be a sort of passive resistance on the part of the Germans to reparations payments," one source said. "If it became well organized it would be very serious."

Current delays, however, are due largely to disagreements in the Allied control council. Of about 700 plants which are likely to be marked for reparations, only 70-odd have been assigned by the council to the I.A.R.A. for allocation to its 18 members, who include all Allied belligerents in the European war with the exception of Russia and Poland. The latter get the bulk of their industrial reparations from the eastern zone of Germany.

One authority said the reparations machinery of the control council should be overhauled as soon as possible to enable the council to assign plants rapidly to the agency here and let them dispose of them promptly.

Several moves are expected shortly to put pressure on the control council in an effort to straighten up this reparations difficulty.

REQUEST REFUSED

Britain Cannot At Present Increase Jewish Immigration Quota To Palestine

LONDON.—It is learned that Britain has rejected a Jewish agency request that the Palestine immigration quota be increased immediately from 1,500 to 4,000 or 5,000 per month.

The British position reportedly is that any alteration of the immigration schedule during the course of the Palestine conference—now in recess until December—would be a breach of faith with the Arabs.

HIGH PRICED

Hereford Bull Brings \$35,000 At Auction Sale

CHEYENNE, Wyo.—A top price of \$35,000 was paid for a Hereford bull Monday at the annual sale and auction of the Wyoming Hereford ranch, which attracted stockmen from 40 states.

W. E. Hoising of Seattle, Boeing Aircraft company executive, paid the price for a prize-winning bull known as "WHR Roy Helmsman." The highest priced bull at last year's sale was \$27,500.

BAN LIFTED

LONDON.—The ban on employment of married women in the British home civil service has been abolished, Hugh Dalton, chancellor of the exchequer, told the house of commons.

SUFFER HEAVY LOSSES

Chinese Communists Beaten Back Into The Hills Around Kalgan

PEIPING.—Government military authorities announced Monday the linking of their forces pushing northwest from Peiping with the victors of Kalgan, capturing three key cities en route and driving the stubborn Communist defenders into the hills to the south.

This victory after three weeks of hard fighting separated the Communists in Jehol from those in north China proper.

Except for four brigades of Communists reported surrounded between Hwaihai and Hsiahwayuan, it cleared the 116-mile rail route from Peiping to Kalgan.

Hwaihai, where the drive from Peiping had been held up, finally was taken after bitter street fighting, the government authorities said.

Most of the hard-pressed Communists retreated toward Yunshen, 80 miles south of Kalgan, while others remaining along the railroad split into guerrilla bands and took to the hills, government sources said.

RECORD HONEY CROP

EDMONTON.—Topping all other provinces in the Dominion, Alberta this year will produce about 6,200,000 pounds of honey to establish a new all-time record, W. G. Le Maistre, provincial apiarist, announced. Manitoba is expected to rank second in this year's crop with approximately 5,000,000 pounds.

In Stuart days, it was the custom to put a piece of toast in the wine cup for flavor; hence the English expression, "drink a toast."

RETURNS TO STRIFE-TORN GREECE—Back on the Greek throne, King George II, seen chatting with the Duchess of Kent as he left England, has to cope with insurgent troops fighting in northern Greece.

CROP REDUCED

LONDON.—Reductions in British crop production as a result of abnormally wet weather in August and September were indicated in the agriculture ministry's 1946 yield forecasts. On 2,000,000 acres sown to wheat the estimated yield will be 17.7 hundredweight an acre compared with 19 last year.

GRATEFUL FOR HELP

WINNIPEG.—British people feel they owe a great deal to Canada for the contribution made during the war years and the present efforts in easing the food shortage in Great Britain, Sir Andrew Jones, chief of the British food mission in Canada, told members of the Canadian club here.

FLEW FROM GERMANY TO MOURN DEAD—Funeral services for the 39 persons killed in the American overseas airliner crash in Newfoundland were conducted in a plane over their mass grave while relatives, flown from Frankfurt, Germany, mourn the dead. Grave is marked with crosses, Stars of David.

Gen. Eisenhower Is Godfather To Air Chief Marshal's Son

Guests of the King and Queen at a ball in Balmoral Castle, Gen. Eisenhower is godfather to Lord Tedder's son. Mrs. Eisenhower, left, seen following the christening of the infant son of Lady Tedder, who holds the baby, and Lord Tedder, right, Britain's air

U.S.-Newfoundland Long-Term Lease A Stumbling Block For Federation With Canada

ST. JOHN'S, Nfld.—Prominent men in Newfoundland believe that one of the main stumbling blocks in the way of federation with Canada is the fact that the United States has 99-year leases on three bases on the island.

These men feel that Canadians would frown on the idea of American troops occupying any Canadian territory during peacetime. They argue, too, that if the United States agreed to give up the bases Canada might not be prepared to pay what it cost the Americans to build them.

The Americans spent approximately \$50,000,000 on the construction of an army base on the outskirts of St. John's. Possibly as much again was spent in the construction of Harmon airfield near Stephenville and of the navy base at Argentia.

American government officials have said recently that the United States has no intention of giving up the bases. Rumors are heard from time to time in St. John's that the United Kingdom and the United States government have informed Canada that they would have no objection to Newfoundland entering confederation. The rumors have drawn no official confirmation or denial.

The bases deal is one of the foremost things in the minds of the people as they ponder over the future of their country. Newfoundlanders are becoming critical of the United Kingdom for granting long-term instead of short-term leases.

Others argue that the bases should have been and should be used as a lever to obtain important concessions for the island. For instance, Maj.

Peter Cashin, outspoken supporter of responsible government, felt that important fish and other agreements could have been obtained from the United States in return for the leases.

A St. John's businessman expressed belief there was little hope for confederation until Canada has put her own Dominion-provincial relations in order. He believed that Prime Minister Mackenzie King would decline to consider confederation seriously until new tax agreements have been worked out with the existing provinces.

He said that Newfoundland's demands would be so much higher than those of some of the existing provinces that they could not be granted at this time without drawing similar demands from other provinces.

ENTERING CABINET

Moslem League Has Announced Intention To Join India's Government

NEW DELHI.—The Moslem League announced it has decided definitely to enter the interim Indian government.

Names of the league's five nominees have been sent to the viceroy, Field Marshal Viscount Wavell.

Representation on the interim government had been a chief point in dispute between Moslems and Hindus and had accentuated bitter feeling between the two groups, often flaring into violent communal demonstrations.

CANADIAN NAVY LAUNCHING RECRUITING DRIVE TO BRING PERMANENT FORCE TO 10,000

OTTAWA.—The Royal Canadian Navy, emerging from its war and post-war duties as the biggest and best sea force in Canada's naval history, is looking for 3,000 young Canadians to man its ships and see the world.

Offering better pay, better opportunities and better accommodation than ever before, the navy is launching a fall recruiting campaign aimed at bringing its permanent number of sources—ex-naval personnel, men with service in the other forces, sea cadets and the Royal Canadian naval college.

Rates of pay and standards of a naval life have been made more attractive in the last few years. For instance, the lowest rating—an ordinary seaman—now begins his service at a rate of \$50 a month against \$37.50 in the pre-war navy and at the end of six months his pay is increased to \$54 against an increase to \$45 formerly. This is tax-free and in addition food, clothing, shelter and dental and medical care are provided at no extra cost.

Accommodation has been improved. Peacetime complements of ships now are about four-fifths of wartime complements, which means that overcrowding on board has been eliminated.

There also is the new "home port" system, under which men from eastern Canada are posted to eastern bases and men from western Canada are based at the Pacific coast. Married men are given every possible opportunity to live with their families.

Extended cruises, such as the voyage of the cruiser Uganda around the tip of South America last year, will be the practice for permanent force training. Reserve men will go on shorter cruises.

that were ready for active service when war broke out.

To date, enlistments in the reserve total 1,800 against the 18,000 men required but this is mainly due to the fact recruiting has been concentrated on the active force, which now includes some 7,000 officers and ratings.

For its permanent force, the navy mainly draws its recruits from a number of sources—ex-naval personnel, men with service in the other forces, sea cadets and the Royal Canadian naval college.

Rates of pay and standards of a naval life have been made more attractive in the last few years.

For instance, the lowest rating—an ordinary seaman—now begins his service at a rate of \$50 a month against \$37.50 in the pre-war navy and at the end of six months his pay is increased to \$54 against an increase to \$45 formerly. Extended cruises, such as the voyage of the cruiser Uganda around the tip of South America last year, will be the practice for permanent force training. Reserve men will go on shorter cruises.

NEAR COMPLETION

Movement of Canadian Servicemen's Wives From Overseas Progressing Rapidly

OTTAWA.—Veterans Minister Mackenzie back from a five week visit to the United Kingdom, said that "all energies now are being concentrated on expediting the arrival in Canada of the remaining overseas wives and on their future happiness in Canada."

All but about 9,400 of the 41,000 wives Canadian servicemen married overseas have been brought to Canada, and on Oct. 1 the number awaiting passage was approximately 6,000.

"I was assured that their movement will be completed by about Dec. 1," Mr. Mackenzie stated.

RESCUES OWN BROTHER
BIRCHINGTON, Kent, England.—Through his telescope former Sub. Lt. Tony Garner, 21, saw two small boys clinging to an overturned canoe in the channel. Swimming to their rescue he discovered them to be his brothers—Peter, 10, and John, aged 13. They were exhausted when he reached them.

YOU'LL GET EXCITED ABOUT
"THREE STRANGERS"

with Sydney GREENSTREET, Peter LORRE and Geraldine FITZGERALD

LOCAL NEWS

Miss Joan Johnston visited at Calgary last week.

Mr. John Lilya is a Calgary business visitor this week.

Mrs. W. A. Shields visited relatives at Lethbridge last week.

Mr. and Mrs. W. Cox were in Calgary this week on a business trip.

Mr. Southerland, of Calgary, is the guest of Miss Winnifred Dunlop.

Mrs. K. Snowdon spent last week end at Macleod where she was the guest of her parents.

Mrs. Vic. Lilya and children were the guests of relatives at Michel at the week end.

Mr. and Mrs. A. Beveridge were recent visitors at Kimberley where they were the week end guests of relatives.

Mrs. R. G. Honn and young son are visiting at Nanton where they are the guests of the former's aunt, Mrs. Robbie.

Ray Spillers travelled to Lethbridge on Saturday where he witnessed the Lethbridge-Edmonton junior game.

The Journal acknowledges with thanks renewal subscription received from Jack Griffiths, Bellevue this week.

Born: To Mr. and Mrs. W. T. Rudd, nee Irene James, of High River, on Monday, October 14, a son, William James.

The Journal acknowledges with thanks renewal subscriptions received from Mr. A. Ferguson, Prince Rupert, BC; Mr. Frank Celli, of Vancouver, and Mrs. George Brown, of Lacombe. The latter enclosed a note in which she describes The Journal as a weekly letter from home. She and Mrs. Brown extend best regards to all their old friends.

Mrs. J. Kostelnik entertained at her home Thursday evening, Oct. 16, in honor of Mrs. R. Schmidt, nee Mary McIntyre, of Pincher Creek, who has been the guest of her parents. Three tables of cards were in play, honors being won by Mrs. L. Lloyd, Mrs. W. Shields and Mrs. H. Gate. Mrs. V. Brown assisted the hostess in serving a most delicious luncheon.

ARRIVES IN QUEBEC

Mrs. Wm. Borrows jr. and small daughter have arrived at Nitro, Quebec, where she has joined her husband. The latter is employed as an inspector at the large chemical plant.

Prior to leaving for the east Mrs. Borrows jr. and her daughter visited Mr. and Mrs. Wm. Borrows sr. for a few days here. In a letter to Coleman she stated that they have a beautiful home, just recently constructed and that the rent is reasonable compared to rents now prevailing in the cities and towns throughout the Dominion. Bill, in writing his parents some time ago, told of his experience of drinking a soft drink in a cafe when who should walk in but Mr. and Mrs. Wilfred Hoyle. The latter are now residing at Montreal where Wilfred is attending McGill University.

BIRTHDAY PARTY

Little Miss Joan Bayon celebrated her third birthday by inviting a number of her young playmates to her home to partake of cake, candy and other delicacies last Friday afternoon. A few games were played after which Joan was presented with a number of small gifts.

Pass Citizens

(Continued from Page 1)
ing them the other three months, but he grain fed them all year.

It was evident to all that should Mr. Oliver close his dairy milk production in the Pass would be in a precarious situation.

Questioned by solicitor Bannan and Chairman Blackstock the witness stated milk was at its lowest in 1913 when it sold 14 quarts for a dollar. In 1939 it was ten cents per quart. Questioned whether milk could be shipped to the Pass in bulk from Cowley, Lundbreck, Mr. Oliver replied that he doubted it. It was at this point Mr. Costigan stated that negotiations were underway to receive milk from Waterton. Asked by Chairman Blackstock what he thought of the idea of the board de-controlling the Pass area, witness stated he was not in favor of such a step.

Mr. Neale submitted information which revealed that milk prices prevailing at certain BC points were 17 cents Rossland; 16 cents Kimberley; 17 cents Trail; 12 cents in both Fernie and Michel.

Chairman Blackstock then stated "if it was not for the unpaid family labor half the Alberta dairies would not be able to operate today."

Mayor Enoch Williams, of Blairmore, told of milk selling at 12 cents in Michel with the producers buying their pay from Pincher Creek, the same place as the Pass producers, and selling for 2 cents less per quart. Mr. Williams also elaborated on mining rates when called upon to do so by Chairman Blackstock.

Mr. Williams expressed his opinion that a "set-up" existed between Lethbridge and the Pass producers and that the Pass milk consumer was paying the shot.

Mr. DeGroot was called back to the witness box and among his testimony he too voiced disapproval of de-controlling the area.

Chairman Blackstock threw the hearing open to the packed court house and many suggestions were offered by the housewives. The Chairman told of his trip to Ottawa on behalf of the consumer but to no avail. He also revealed that the board's auditor would come to the Pass to examine the books of the Pass Dairy. Suspicion was voiced that the Pass Dairy was making huge profits. This was immediately counteracted by a statement from Chairman Blackstock that during the past four years the Pass dairy has been deeply in the red for three years and only last year barely made the black side of the ledger. Mr. Blackstock also granted Mr. Bannan and other organizations interested the privilege of submitting written briefs to his board within a week's time.

The milk inspector in his evidence revealed that never at any time had water been added to the Pass Dairy milk and that it was constantly if not higher than the regulations called for in the provincial act.

Tenders For Municipal Hospital

Tenders for a municipal hospital for the Crowmest Pass M.D. No. 40 will be received in the office of the secretary, A. Balloch, Coleman, not later than five o'clock, November 6, 1946.

Plans and specifications may be obtained from Meech, Mitchell & Meech, Architects & Engineers, 114 McFarland Building, Lethbridge, Alberta, upon payment of a deposit of Ten dollars (\$10.00). Plans must be returned within twenty-four hours after tenders close and deposit will then be refunded.

A marked cheque for five per cent (5%) of the amount of the tender must be enclosed with each tender as a guarantee that same is bona-fide. No tender will be considered without this cheque attached.

The lowest or any tender will not necessarily be accepted and acceptance of any tender is subject to approval by the Provincial Department of Health.

Forefall Disaster

Disasters come to everyone. Some folks are luckier than others and the blows fall with less weight, but, somehow, sometime, troubles arrive. It isn't a very cheerful thought, but it must be admitted it's truthful. Disasters, with their certain losses, can be anticipated and lightened by insurance. We have for your inspection many different forms which adequately cover your requirements.

Let Us Explain Them To You.
